

REASONS TO MAKE A WILL

1

ENSURE YOUR CHILDREN ARE CARED FOR

If you have children under 18 you choose who looks after them until they come of age

2

MANAGE YOUR CHILDRENS INHERITANCE

You can place assets in trust for children to ensure that they don't inherit large sums automatically at 18

3

CHOOSE WHO YOU WANT TO INHERIT

You get to decide who is in charge of organising your Estate and who inherits your savings and possessions

4

REDUCE YOUR INHERITANCE TAX

A Will can reduce the amount of Inheritance Tax that you might otherwise have to pay

5

MAKE YOUR LOVED ONES LIVES' EASIER

Without a Will it can be a time-consuming and stressful process sorting out everything when you die for those you have left behind.

6

NOT MARRIED?

Without a Will, if you are not married, your partner may not receive anything.

7

OR HAVE YOU RE-MARRIED?

A properly drafted Will can ensure that any children from your first marriage get a share of your possessions.

8

DO YOU HAVE A BUSINESS?

A Will allows you to make appropriate measures so after your death an adequate succession plan is in place.

9

DO YOU OWN PETS?

A Will allows you to say what should happen to any pets that you own.

10

FINANCIALLY PROVIDING FOR SOMEONE?

If you are financially providing for someone it can avoid a costly claim against your Estate after your death.
